

April 9, 2021

Good afternoon,

The number of people diagnosed with COVID-19 has started to rise again. This means we all must continue to be vigilant by wearing masks and social distancing to stop the spread. The PLUS Company is proud to have over 200 of our staff and clients vaccinated to date. We would like to encourage anyone who has not yet signed up to receive their shot to do so as soon as possible. The state will be hosting a vaccine clinic at the New Hampshire Motor Speedway this weekend, where New Hampshire residents who are 18+ can receive the single dose Johnson & Johnson vaccine. As of this morning, there were still times available on Sunday. Please visit <https://www.vaccines.nh.gov/> to register if this drive-through option appeals to you. If you would like other options, please visit the website and choose a location and time that works for you. Please note that all New Hampshire residents ages 16+ are now able to register for their COVID-19 vaccination. \*Quick tip – If you expand the area you are willing to travel, you may be able to find an appointment sooner. \*

If you are a resident of Massachusetts, please visit <https://vaccinesignup.mass.gov/> to find out when you can register for your vaccine. Please note that Massachusetts is still in Phase 2 of their vaccine roll-out, but will be moving to Phase 3 (everyone 16+) on April 19.

In other news, we are looking at ways to help clients begin to access in person programming; however, this will be very limited initially due to lack of staff. We need your help to find good people looking for a fulfilling and rewarding job. If you know anyone who is looking for a career that makes a real difference in people's lives, please send them to <https://pluscompany.org/workingatplus>. We have hours available every day of the week, including weekends, and are ready to hire!

The weather looks beautiful on Saturday. I hope everyone is able to get out and enjoy!

Thank you all,

Kim Shottes  
Executive Director
